

CE RoHS

The VISIONIS VIS-2001 Armored Door Loop is designed to protect and neatly manage wiring between a door frame and the door. Built with a durable stainless steel flexible hose and strong mounting bases, this accessory prevents cables from bending or wearing out due to constant door movement. Its compact and professional design ensures a clean installation, making it a reliable choice for both residential and commercial access control systems.

The VIS-2001 is easy to install with surface-mount brackets and included screws. Its 8mm inner diameter allows secure passage of multiple wires, while the 400mm hose length provides flexibility for standard door setups.

Model No.	VIS-2001
Inner Diameter	8mm (0.31 in)
Metal Hose Size	400mm (15.75 in)
Metal Hose Material	Stainless Steel
