The VISIONIS Push to Exit Buttons and Switches offers a variety of options to fit several applications needs.

Door Release Exit Buttons are the most common part in Access Control systems. They are often used in all types of applications such as in Offices, Banks, Gas Stations, Department Stores and much more.

The VISIONIS Push-to Exit Buttons may be connected to the request-to-exit input of any access control device or directly connected to an electromagnetic lock or Electric strike Device.

Model No.	VIS-7007
